**WALLWORKS NEW YORK CLOSSES OUT THE YEAR WITH A GROUP SHOW BRINGING TOGETHER A ECLECTIC MIX OF ARTISTS AND MEDIUMS!**

**BRONX, NEW YORK (SEPTEMBER 1, 2021)** – As the 2021 year comes to a close, WALLWORKS NEW YORK is proud to present our next exhibition, **CROSSING MEDIUMS**, a group exhibition of an eclectic mix of artists, both local and from around the country.

**CROSSING MEDIUMS** brings together photographer Felix Gamez, artist/sculptor George Spencer and artists Outersource, Pose and Queen Andrea. The fusion of these five different artists creates an immersive look into different mediums of art that still all work together in a cohesive way to bring forth a message; art is what triggers you to feel something.

Whether that comes in the form of nostalgia in the form of Spencer's rock'em sock'em robot sculptures or from recognizing someone from the neighborhood in Gamez's photographs; experiencing the bright colors and clever words in the works by Queen Andrea; finding the messages in Pose's collage style work; feeling a sense of wonder and awe in Outersource's cosmic creations.

**CROSSING MEDIUMS** opens on December 18, 2021 with a free, limited ticketed reception. Tickets will be available on Eventbrite. The exhibition will run until January 22, 2022. Appointments recommended for attending during exhibition run. Please visit [wallworksny.com/current](http://wallworksny.com/current) for more information.

*In compliance with Key to NYC, we will be requiring proof of vaccination or negative test for opening reception (Excelsior pass or vaccination card). We are not liable for authenticating any proof of vaccination.*
